Re: Proposed License for SpeedTrack, Inc. U.S. Patent No. 5,544,360

Dear Mr. Berman,

Thank you for your letter of November 30, 2011, requesting Costume Craze, LLC consider taking a license to U.S. Patent No. 5,544,360 (hereinafter '360) filed on February 3, 1995 and issued August 6, 1996 with priority to November 23, 1992. We appreciate your desire to resolve this matter in an efficient and cost effective manner. To that end, we have conducted a review of the '360 patent. We have identified 475 patents that fulfill the criteria set forth in 35 USC §102 & 103. We would request that you address those claims of the '360 patent you find enforceable in light of the following selection of 5 patents that were not cited by SpeedTrack, Inc. during the prosecution or reexamination of the '360 patent.

Patent #	Title	Original Assignee	Priority Date	File Date	Issue Date
US5355472	System for substituting tags for non-editable data sets in hypertext documents and updating web files containing links between data sets corresponding to changes made to the tags	IBM	April 19, 1990	November 19, 1990	October 11, 1994
US5006992	Process control system with reconfigurable expert rules and control modules	Du Pont de Nemours and Company	September 30, 1987	September 30, 1987	April 9, 1991
US5490273	System of dedicated elementary data processing machines organized in multiple levels and selectively activated to process incoming events	Societe Anonyme Dite	May 16, 1990	June 7, 1994	February 6, 1996
US5367619	Electronic data entry system employing an expert system to facilitate generation of electronic data forms with complex interrelationships between fields and subforms	Eaton Corporation	April 27, 1990	January 10, 1994	November 22, 1994
US5367671	System for accessing extended object attribute (EA) data through file name or EA handle linkages in path tables	IBM	September 25, 1990	September 25, 1990	November 22, 1994

Lisa

We believe in light of the substantial quantity of unconsidered precedent innovation SpeedTrack Inc.'s ability to assert the '360 patent on grounds that it is new or non-obvious is significantly narrowed. If you could clarify SpeedTrack Inc.'s assertion of patent rights in context of these patents, we would be pleased to supply the remainder of the unconsidered precedent innovation prior to any consideration of a license.

In the interest of our commitment to patent quality, we have copied this correspondence to the United States Patent & Trademark Office for their information and possible inclusion in the file wrapper of the '360 patent.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kate Maloney', with a stylized, flowing script.
